Zetaco & Data General

* Continued commitment to R&D on new peripheral products for the MV family of processors

- **SKS-HP**: High Performance Magnetic Disk

- **SKT-2300**: Tape Back-Up onto 2-Gigabyte Cartridges

- **SKR**: Large Data Storage on Rewriteable Optical

Zetaco & Design Data

- * **Factory-trained Sales and Technical Support**
- * **Full line of products and services for MV's**
- * **Over \$1 million in Zetaco Subsystem sales to Data General users in 1989**
- * **Spares available on Overnight Exchange Program**
- * **Most popular products stocked for immediate delivery**

SKS-HP

High Performance Disk Subsystem

- * **RAMS-like performance**
 - Synchronous SCSI
 - Full track buffers

- * **Choice of drives (mix and match)**
 - 601 MB @ 16.5ms average seek
 - 330 MB @ 10.7ms average seek

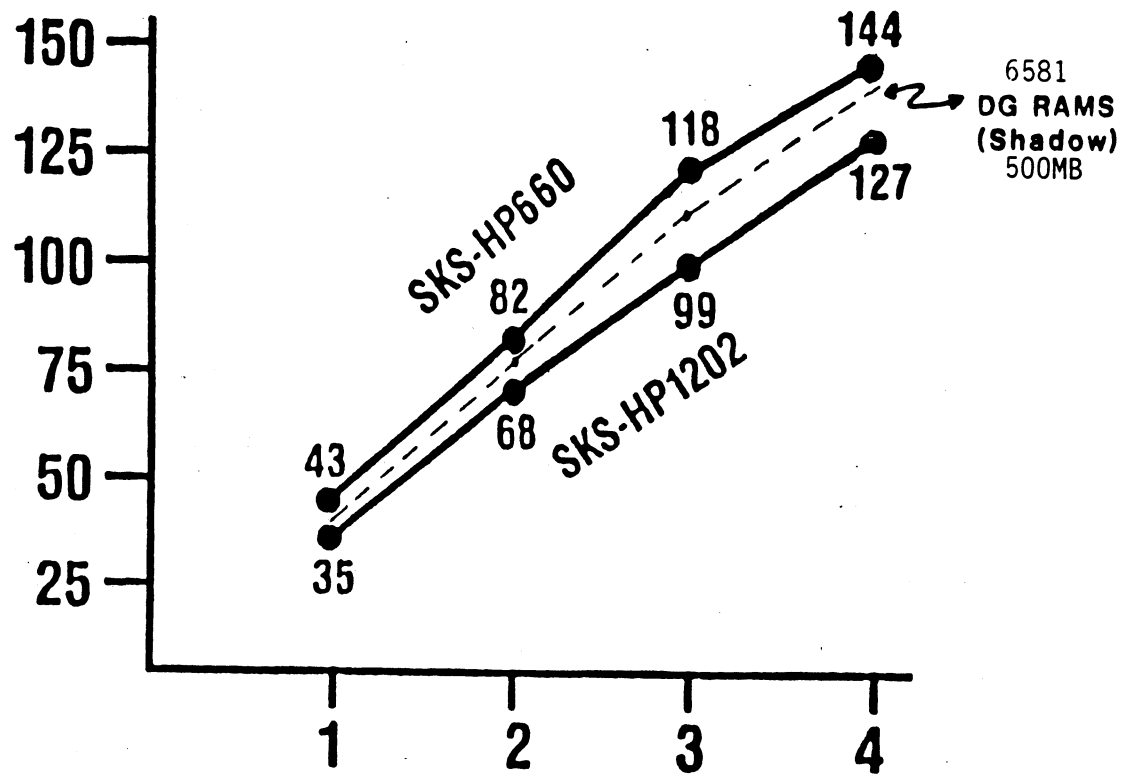

- * **Savings**
 - Power consumption: 80-90%
 - Heat dissipation: 50-75%
 - Floor space: 60-80%

- * **DPJ Device Driver**
 - Supports AOS/VSII, mirroring, dual port
 - Max cable length = 80 ft

- * **Industry Standard Interface**
 - SCSI drives may be ported to AViiON

- * **Packaging Options**
 - 2 drives in 3.5"-high 19" rack
 - 4 drives in 5.25"-high 19" rack
 - 2 removable drives in 5.25"-high 19" rack

Transactions Per Second
for entire Subsystem

Number of Drives in Subsystem

SKT-2300
8mm Helical Scan Tape Subsystem

- * AOS/VS MTJ device driver
- * AOS/VS 7.65 or above
- * SCSI drive can be ported to AViiON
- * Uses standard DG diagnostic & reliability programs
- * 10X high speed file search
- * 75X rewind speed
- * Finds files without returning to load point

- * 8mm tape
 - 2 GB per cartridge, yet pocket-size
 - Low media cost (<2¢ per MB)
 - Helical scan = high density

- * Desktop package or rack-mountable

- * Controller also supports reel-to-reel
 - STC 2925, 6250 *bpi*

SKM Disk/Tape Combination

- * **Configuration Flexibility**
 - 4 disks
 - 3 disks with 1 *8mm* tape
 - 2 disks with 2 *8mm* tapes

- * **Fast back-up**
 - 250 *KB/sec*: 100 MB in 7.5 minutes
(contiguous files, SKS-HP)
 - 180 *KB/sec*: random data (SKS-HP)
 - 100 *KB/sec*: random data (DG's Argus)

- * **Two tape drives double the speed**

SKR Disk Subsystem with Rewriteable Optical

- * **Emulates Argus disk**
 - Random access to data = faster
- * **High capacity, yet compact**
 - 594 MB per 5.25" platter
 - Removable, rewriteable
- * **Desktop single (small footprint), or
deskside jukebox with 15 GB**

SKR
Jukebox for 5.25" Optical Drives

- * Zetaco/AViiON applications
- * Up to 18 GB (30 cartridges)
- * 1 or 2 drives internal, 1 or 2 drives external
- * Max 4 seconds to change cartridges
- * Weight = only 65 lb. empty
- * Fits 19" rack: 19" x 21" x 30"
- jukeboxes are stackable
- * Designed MTBF = 1 service call per year at 500,000 platter exchanges
- * On-site service, available nationwide

With Zetaco, You Can Count On

- * True Emulation of Data General's Software Drivers
- * Compatibility with full range of MV's
- * Enhanced Performance
- * Leading Edge Peripheral Technology
- * All at Substantial Cost Savings
